

SUNYIT Master's Swim Program

Hello! My name is Kelsey Finegan and I am the newly appointed Aquatics Director and Head Men's and Women's Swimming Coach at the SUNY Institute of Technology located in Utica, NY. As a former swimmer I often have the desire to get back into the pool, but don't want to train alone. I expect that there are other swimmers in the Mohawk Valley who feel the same way, so I have decided to create a Master's Swim Team here at SUNYIT.

As the coach of the team I have strong credentials. I swam competitively for 14 years and have coached Division I college swimming, as well as age group swimming.

The logistics of the swim program, such as practice times and membership price, are to be determined based on feedback from those who are interested. If you would like to join the SUNYIT Master's Swim Program please contact me at any point in time.
